COMMUNICATE

Communicate with your stylist which technique would be best for your hair type.

Wet Cut

Recommended for fine and regular hair. This cut is performed on freshly shampooed/conditioned hair. This technique is to insure the most control and creates the truest sculptural form.

Dry Cut

Recommended for thick and coarse hair for maximum control. This cut is performed on freshly shampooed/conditioned hair that is dried and then ready to be sculpted by the stylist. This technique insures precise and perfect layers, a streamline bob and curls that won't shrink before your eyes.

PRECISION HAIRCUTS

All Kim Vō cuts are finished on dry hair to insure your exact personality comes through. All of our shears are sharpened at a 45-degree angle to insure the cleanest, most precise line in a haircut.

Tropical Island Bliss

A divine blend of organic Virgin Coconut Crème, coconut flakes and brown sugar will melt into your skin as we gently buff your hands, arms, feet and legs. A Cocoa Butter Crème heavenly scented with exotic Frangipani will then be massaged, leaving you adrift on a cloud and ready to go out in style or do absolutely nothing.

Lemongrass Bamboo

Zesty, refreshing Lemongrass and May Chang oils, detoxifying Bamboo and mineral-rich sea salt come together to slough away anything that isn't your smoothest, most velvety skin. As you slip off to Nirvana, a skin-softening and soothing Yogurt Wrap is massaged into your skin, drenching it with healing nutrients from a myriad of organic herbs and flowers. As the crowning finish, a Lemongrass-scented Shea Butter Crème is massaged in, leaving your hands, arms, feet and legs smooth, glowing and refreshed.

Moroccan Jasmine Tea

First your hands then your feet are gently exfoliated with a sweet and intoxicating blend of sugar and exotic Jasmine oil, evoking memories of Casablanca.
